

Wigwam Holidays

Description:

Manufacturers and designers of the Wigwam® for Wigwamholidays.allroundbuildings are designed for the rural environment using sustainable resources of home grown timber for their construction. Forest thinnings are bent while fresh to form the pre stressed timber frame resulting in strength and form which reflect the surrounding landscape. The all wooden buildings are clad in timber selected for durability to give a natural weather resistant finish. Insulated to any specification they provide a spacious light and comfortable living space, ideal for all season use.
